github.com/Zhaskii

Nepal

TECHNICAL SKILLS

Frontend

Next.js, React, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Material UI

Backend

Node.js, Express.js, Payload CMS, REST APIs, JWT Authentication, bcrypt

Database

MongoDB, Mongoose

Data Handling

Axios, React Query, async/await, CRUD operations, error and loading handling

Tools

Git, GitHub, Postman, VS Code, npm, Figma

EDUCATION

BIT (Hons)

Phoenix College of Management
2022 — Present

MERN Stack Development

Broadway Infosys
February 2025

Web Design

Broadway Infosys
April 2024

PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building scalable web applications using Next.js, React, TypeScript, Node.js, Express.js, MongoDB, and Payload CMS. Skilled in developing REST APIs, implementing JWT authentication, integrating headless CMS solutions, and delivering responsive, production-ready web applications.

PROFESSIONAL EXPERIENCE

Junior Web Developer · Arksh Group

Feb 2026 — Current

- Develop full-stack applications with Next.js, React, TypeScript, Node.js, Express.js, MongoDB, and Payload CMS.
- Translate business requirements into responsive interfaces, reusable components, REST APIs, database-driven features, and structured Payload CMS workflows.
- Integrate frontend and backend services, resolve application issues, and improve performance, maintainability, and user experience.

Web Developer Intern · Arksh Group

Nov 2025 — Feb 2026

- Built responsive React interfaces, integrated Node.js and Express REST APIs, and worked with MongoDB-backed features.
- Handled loading and error states, diagnosed bugs, improved cross-device usability, and collaborated through Git and GitHub workflows.

SELECTED WORK

Sulux Centre · Luxury E-commerce

Live

suluxcentre.com

- Designed and developed a premium responsive e-commerce website from scratch.
- Built product discovery, curated collections, product-detail pages, promotions, showroom information, and service-centre content.

Arksh Group · Corporate Platform

Live

arkshgroup.com

- Built a complete, polished corporate website from scratch with a responsive interface.
- Structured company history, leadership, business verticals, services, news, blogs, galleries, careers, and contact information.

Sulux Hour · Luxury E-commerce

Live

suluxhour.com

- Created a responsive multi-category storefront for watches, fragrances, and eyewear.
- Designed product discovery, clear navigation, brand storytelling, service information, and direct customer-contact options.

TECHNICAL PROJECTS

Real-Time Chat App

GitHub

- Developed a full-stack React and TypeScript chat application with JWT authentication, protected routes, MongoDB persistence, and paginated history.
- Implemented Socket.IO messaging, online-user tracking, input validation, and centralized error handling.

Property Dashboard

GitHub

- Built a MERN property-listing and favourites application with a responsive dashboard.
- Implemented JWT authentication, protected APIs, property browsing, user-specific saved properties, and instant add/remove interactions.
